Subject: Draft response to Grant - RE: Letter
Attachments: Tetra Tech recommendations to Navy Technical Com Inv EPA Draft 2016-12-14 - 1130 am.doc

Dear Grant,

Thank you for your helpful language for framing this letter. The attached revision shows a modified version of your language that adds the regulatory and technical dimension.

Thank you also for considering writing a separate support letter. In addition, to convey our collaboration, we could add to EPA's cover letter language such as this:

"As you requested, EPA is providing recommendations for the scope of work for the technical evaluation and community involvement, developed in collaboration with our state regulatory partners."

Let me know what you think.

- Enrique

Subject: Letter

Hey Enrique,

We put this text together for your consideration. It's really just a more explicit frame for the recommendations.

I haven't shown Matt this, yet, but have meeting tomorrow morning where I'll show him this document or whatever document y'all put out and then float the proposal for DTSC and CalEPA to send a letter to the Navy supporting your letter.

Thanks,

Grant
